**RE: Approval of the April 2015 Final RCRA Facility Investigation Report  
General Electric of Puerto Rico LLC, Arecibo Facility  
PRD090383860**

Dear Ms. Varacchi-Ives,

The U.S. Environmental Protection Agency (EPA) has reviewed the April 2015 RCRA Facility Investigation (RFI) Report for the General Electric (GE) of Puerto Rico LLC facility (former Caribe GE Int. Electric Meters) located at Manuel Zeno Gandía Industrial Park, Arecibo, Puerto Rico. After careful evaluation, EPA concurs with GE that the investigation has been completed and No Further Action (NFA) is necessary at this facility. This NFA is based on current conditions present at the facility.

Therefore, EPA approves this April 2015 RFI Report. If you have any questions regarding this matter, please contact geologist David N. Cuevas, Ph.D. at (787) 977-5856 or through electronic mail at [cuevas.david@epa.gov](mailto:cuevas.david@epa.gov).

Sincerely,

A handwritten signature in blue ink, which appears to read "José C. Font", is positioned above the typed name and title of the signatory.

José C. Font, Director  
Caribbean Environmental Protection Division
